

Re INCA/Ochsner story, States-Item 9/13/72:

HW 9/30/72

If you can please send me a clearer copy of this I'd like to give it to Paul Vementine, who has done some first-rate reporting on the extremists so-called "youth" groups. They figure in this in a way and it just might interest him.

Butler is one of those who compelled interest in himself I might not have exerted. Thus I have tapes of most of his old programs. They were incredibly amateurish and dull. And the propaganda was usually unhidden.

On one of them he had a guy who had been of interest to Paul. On this show, gratuitously and pointlessly Butler twice plugged "Imperium", the Mein Kampf of Francis Parker Yockey, in whose name the forerunner of the "youth" movement by that 39-year-old kid ran was named.

By the way, have you anything on the seemingly mysterious death of Yockey in that San Francisco jail? No great interest. Partly curiosity, partly in case Paul is interested in this particular kind of "Americanism" honored by Nixon in person.
